

SJ Class of '71

In Loving Memory

Theodore "Teddy" Beriau

August 26, 1953 - November 22, 2016

*"...I want you all to know that
I never gave up, I fought until
the end..."*

Ted grew up in the Grafton Hill, Lake Park and East Side sections of Worcester. These were middle-class neighborhoods where Ted made many lifelong friends, several of whom in Ted's words "were lucky enough to attend St. John's High beginning in 1967 and take advantage and enjoy the many opportunities that St. John's provided us."

Ted was officially diagnosed with ALS (Lou Gehrig's Disease) in 2010 but the disease probably started much earlier. He first noticed a weakness in his legs in 2008 and needed to use his arms to get up from a sitting position. Walking became more and more difficult until he finally lost complete use of his legs and had to be confined to a wheelchair.

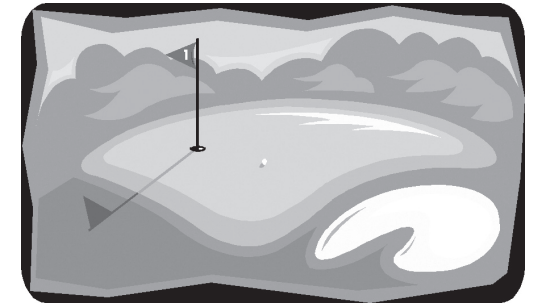

Ted did not allow ALS to slow him down. In his words, "My diagnosis is still ALS, but perhaps because of my stubbornness and faith in God, its progression has been slowed and I enjoy every day. The disease gives me some tough days, but I try my best to look forward and not backward. This disease is as hard on my family as it is on me. I do not know what tomorrow may bring, but I do my best to use the abilities that I still have despite the disease."

Ted was honored to be presented with the Bruce Kopka Memorial Alumni Award in November of 2015 at the Hall of Fame Banquet.

Ted succumbed to this terrible disease on November 22, 2016.
